WET/DRY VACUUMS, DRUM FANS & AIR MOVERS 2023 CATALOGUE

GUARANTEED TOUGH.®

THE MOST POWERFUL VACUUMS AND AIR MOVERS

The DEWALT Wet/Dry Vacuum is equipped with a quick-connect locking hose system for a secure and easy connection. It also features high-performance rubberized non-marring casters that enable smooth movement on any surface. To ensure easy transportation to job sites, the vacuum is designed with a large fixed handles that double as a cord wrap. With the exclusive Clean and Connect™ filter system, only available on DEWALT Wet/Dry Job Site Vacuums, professionals can quickly and easily change filters without the need for screws or adapter plates, while also avoiding contact with the dirty filter.

WORK SAFER & FASTER WITH POWER TOOL ACTIVATION

Introducing our range of industrial wet and dry vacuums with power tool activation outlets. Designed to make your job easier and more efficient, these vacuums automatically turn on and off when you start or stop your power tools. This means you can focus on the task at hand without having to worry about manually turning on the vacuum or cleaning up after the job is done. Our industrial wet and dry vacuums are built to withstand even the toughest jobsite conditions and come in a variety of sizes and capacities to meet your specific needs. With powerful suction and the convenience of power tool activation, our vacuums are the perfect addition to your workshop or jobsite arsenal.

STEALTHSONIC
50% QUIETER OPERATION
JUST AS POWERFUL

The DEWALT STEALTHSONIC Wet/Dry Vacuum has a powerful and quiet motor providing strong suction power and airflow to clean up the toughest wet and dry debris while being 50% quieter than the current model. It features a quick-connect locking hose system, making it an easy but secure connection. High performance rubberized non-marring casters allow for smooth and easy movement across any surface. The large fixed handle doubles as a cord wrap for easy transportation across any job site. The filter features the exclusive Clean and Connect™ system, which is only available for DEWALT Wet/Dry Job Site Vacuums giving you the ability to quickly and easily change filters without the need for screws or adapter plates, while also avoiding contact with the dirty filter.

REMOVE UP TO 99.5% OF DUST FROM THE AIRSTREAM

Introducing our range of industrial dust separators - the ultimate solution to keep your workspace clean and safe. Our dust separators are designed to remove up to 99.5% of dust and debris from the airstream, preventing suction loss and protecting your filters from premature clogging. This means your equipment can operate at maximum efficiency, reducing maintenance and downtime. Our separators are available in various sizes and capacities to suit your needs, and can be easily integrated into your existing system. With our advanced technology and durable construction, you can trust our dust separators to deliver reliable and long-lasting performance, while keeping your workspace dust-free and healthy. Invest in our industrial dust separators today and experience the benefits of clean air and improved productivity!

COMPACT & PORTABLE
DUST SEPARATORS

REMOVES UP TO 99.5% OF DUST AND DEBRIS

FEATURES

- **A** Dust separator with strong and durable polymer or stainless steel tank
- **B** Removes up to 99.5% of dust and debris from the airstream, preventing suction loss
- **C** Compatible with most brands' vacuum hoses
- **D** Swiveling casters provide ease of movement
- **E** Unique user-friendly antistatic material
- **F** Easy to assemble and store

CONNECT TO ALL TYPES OF VACUUMS

THE POWER OF SILENT FANS AND AIR MOVERS

The DEWALT Fan is an ideal choice for using in workshops or anywhere you need to keep people and machines cool. These fans have a unique drum and blade design making them strong enough to deliver a safe and reliable performance which is powerful yet silent.

With a wide range of air speeds and operating angles, the DEWALT air movers offer leading performance and multiple-purpose design. It can perform a full range of blow-drying tasks, whether on wet carpets, walls or ceilings. It can also easily blow away dust or water stains caused by other jobs.
